### SSLC

St. Sebastian's H S S

JUN 2017 - May 2018      Kuttikad, Thrissur, Kerala

## PROJECT - FRUIT QUALITY DETECTION

- Fruit quality detection is a process of analyzing the quality of fruits automatically based on different features of an image like color, size, texture, shape, etc.
- The captured image is transmitted to the processing stage where it can extract the fruits features like shape, size and color. These processes are done using the image processing. It helps to identify and compare the fruit shape, size and color with the trained datasets.

## ACHIEVEMENTS

- Completed Certification on "Data analytics"
- Completed Certification on "Fundamentals of Digital Marketing"
